

RS-FIX

Smoke curtain

The RS-FIX is a static smoke protection curtain with DA or DH-30 classification, which reliably limits and controls the spread of smoke in the event of a fire. The system is designed to separate building areas according to defined zones and to prevent the spread of smoke into other sections.

Typical Applications

The RS-FIX is ideal for industrial buildings or applications where curtain movement or aesthetic considerations are not a priority. The system has been tested and approved according to the European standard UNE EN 12101-1 and bears the CE marking.

Material

Fiberglass fabric with double-sided polyurethane coating, heat-resistant up to 600 °.

Seams

Made from high-strength Kevlar thread for maximum stability.
